

# Prepare for Your All-on-6 Dental Implants Trip to Turkey

## Documents and Visa Requirements

- Ensure you have a valid passport for international travel to Turkey.
- Check visa requirements on the official Republic of Turkey Ministry of Foreign Affairs website or via their e-Visa portal ([www.evisa.gov.tr](http://www.evisa.gov.tr)).
- Bring medical documents such as dental records, X-rays, and any dental treatment plans you may have.
- Clinics in Turkey typically provide necessary diagnostics and tests for patients missing certain medical documents.

## Accommodation Options

Many clinics partner with 4\* hotels, offering discounted rates or included accommodation as part of the treatment package. You may also self-book your accommodations if preferred. Hospital stays are typically included in the treatment duration. Average hotel stay per night ranges from \$50 to \$150, depending on the hotel's quality and location.

## Transfer Services

- Many clinics offer free airport transfers, while some may charge an additional fee.
- Popular taxi services such as BiTaksi and iTaksi are available in major cities, with approximate prices starting from \$0.5 to \$1 per kilometer.

## Interpreter Services

Interpreter services are often provided free of charge by the clinics. However, if not included, patients can arrange for paid interpreter services through various agencies.

## Payment Methods

- Clinics accept payments in cash and by card.
- The local currency is the Turkish Lira, but many places also accept dollars or euros.
- Having local cash can be convenient for smaller expenses and in areas that may not accept cards.

## Pre-Op All-on-6 Dental Implants Tips

- Consult with your local dentist before traveling and bring a copy of your dental records.
- Maintain good oral hygiene to reduce the risk of infection post-procedure.
- Avoid smoking and alcohol consumption as they can hinder the healing process.
- Eat a healthy diet and stay hydrated before your procedure to ensure optimal health.
- Plan for adequate recovery time in Turkey, following the clinic's recommended stay.
- Bring comfortable clothing and essentials for the duration of your stay in the hospital and hotel.
- Make sure you understand the postoperative care instructions provided by your dental surgeon.
- Have a local SIM card or roaming plan to stay connected with your medical coordinator and clinic.
