

# Prepare for Your Bladder Cancer Treatment in Spain

## Documents and Visa Requirements

- Ensure you have a valid passport for international travel to Spain, with at least six months remaining before expiration.
- Check visa requirements for Spain based on your country of origin at the official Spanish visa portal or through the Spanish consulate or embassy in your country.
- Carry medical documents such as a referral from your local doctor, medical history, and details of previous treatments.
- Spanish clinics provide diagnostics and tests, such as complete blood count with cancer markers and a proteinogram, if certain medical documents are missing.

## Accommodation Options

While the clinic does not provide free accommodation, they assist with booking hotel rooms at special partner prices. Hospital stays are determined by the treatment plan. Accompanying persons can stay with the patient, subject to the accommodation's policies. The average hotel stay per night ranges from €50 to €150, depending on the location and standard of the hotel.

## Transfer Services

- Clinics may offer airport transfer services but usually at an additional cost.
- Popular taxi services like Taxi Madrid or Cabify operate in major cities, with prices starting at approximately €30 for a ride from the airport to the city center.

## Interpreter Services

Interpreter services can be arranged for non-Spanish speaking patients, typically at an additional cost. Bookimed provides assistance with interpreter services upon request.

## Payment Methods

- Payments for medical services can be made using cash or credit/debit cards.
- The local currency is the Euro (EUR), and it is recommended to have some local cash for small expenses.
- Most establishments accept payments in euros, and carrying a small amount of cash is advisable for convenience.

## Before Your Bladder Cancer Treatment

- Follow any pre-treatment instructions provided by your medical team, such as fasting or medication adjustments.
- Plan for recovery time post-treatment and arrange for any necessary support at home.
- Stay hydrated and maintain a healthy diet to prepare your body for treatment and recovery.
- Discuss with your doctor any concerns or questions you may have about the treatment and its side effects.
- Ensure you have a list of essential contacts, including your medical coordinator, in case of emergencies.
- Carry a copy of your medical records and prescriptions, as well as a list of medications you are currently taking.
- Consider purchasing travel insurance that covers medical treatment abroad.
- Rest well before your trip to ensure you are in the best possible condition for treatment.
