

Prepare for Your Dental Implant Trip to Turkey

Documents and Visa Requirements

- Valid passport or travel document.
- Visa requirements can be checked at the official Republic of Turkey Electronic Visa Application System (evisa.gov.tr). Not all travelers need a visa, so it's essential to verify based on your country.
- Medical history records, dental records, and any X-rays if available.
- Clinics in Turkey may provide diagnostic tests if the patient lacks certain medical documents.

Accommodation Options

Most clinics do not include accommodation, but some offer VIP transfer services. Clinics may partner with nearby hotels to provide special rates, or patients can choose to self-book. The average hotel stay per night ranges from \$30 to \$100 depending on the hotel's standard and location.

Transfer Services

- Some clinics offer free airport-hotel-clinic-airport transfers.
- Popular taxi services such as BiTaksi and iTaksi operate in major cities; prices may start from around 1.50 TRY/km (approx. \$0.10/km).

Interpreter Services

Language assistance is commonly available, sometimes free of charge or included in the dental treatment package. Otherwise, interpreter services may incur additional costs.

Payment Methods

- Payment options include cash and credit/debit cards.
- Local currency is Turkish Lira (TRY), and it's advisable to have it for minor expenses.
- Some places may accept payment in dollars or euros, but it's not guaranteed everywhere.

Pre-Op Dental Implant Tips

- Ensure you have a comprehensive dental evaluation, including X-rays.
- Discuss any medical conditions and medications with your dentist.
- Plan for recovery time – activities and diet may be limited post-surgery.
- Avoid smoking as it can negatively affect the healing process.
- Follow any pre-operative instructions given by your dental professional.
- Arrange for someone to accompany you on the day of surgery if possible.
- Consider having a local sim card or internet access for communication.
- Remember to bring any personal dental care items recommended by your dentist.
